

NRG Expert Transmission and Distribution Report and Database Edition 6, 2016

Market Intelligence

T&D networks are continuously evolving in both size and nature. They must grow in order to cope with ever rising demand. In the past where it was a matter of adding more lines, transformers and ancillary equipment, today the technology of the systems is often able to substitute increased sophistication for physical growth, or to reduce the additions required by making the system more efficient.

This NRG Expert Database and accompanying report allow you to make key business decisions based on our forecasts and analysis of the Electricity T&D Market. Our team of analysts, backed by the vast data we have collected, have created this industry analysis and forecasted data to 2020 for key sectors of the industry.

The Database

The database is the main focus of the product and as such contains the important forecast information and current figures. The database consists of 1 **Global Data Summary** and 9 individual **Region** Microsoft® Excel (.xlsx) files.

Global Data Summary

The **Global Data Summary** file contains three tabs:

- Annual Demand
- Line Lengths
- Capex

The *Annual Demand* tab shows a regional and by-country overview of the annual demand 2015 actual figures and forecasts for 2016-2020 in 2015 United States Dollars (USD) as broken down into the 9 sectors defined by NRG Expert: Transformers, Power Systems, Utility Automation, Cables, Switchgear, Sub-Station, Towers, Insulators, and Meters. Scroll right in the spreadsheet to access all sectors.

The *Line Lengths* tab gives a global overview of the total installed line lengths in both the Transmission and Distribution categories separately. The year 2015 shows actual figures with forecasts from 2016-2020.

The *Capex* tab follows a similar format as the Annual Demand tab and shows Capital Expenditure in the T&D industry by region and by country presenting 2015 actual and 2016-2020 forecast figures in 2020 USD.

Region Files

Each region file contains a tab with *T&D Company Listings* for that country, a breakdown of the *Annual Demand* and *Capex* figures of countries of that region (mirroring the data contained in the *Global Data Summary*) followed by individual tabs for each country in the region.

Country Profiles

NRG Expert has compiled data in the T&D Sector for **180 countries** broken down into 9 regions. The country profiles contain¹:

- Transmission² and Distribution line-length (installed KMs) data:
- Capex (2015 actuals forecast to 2020 in 2015USD) data:
- Annual Demand (2015 actuals forecast to 2020 in 2015 USD) data:
- Generation Capacity (Installed MW Capacity) data:
- Voltage Breakdown and Overhead Underground Analysis
- Network Maps
- Listings of Grid Interconnections

¹ Please see the *Countries Covered in the Database* section for more information on the data that is available for each country

² Where applicable

The Report

The report element of the T&D product presents a background to the Electrical Supply Industry giving an historical overview of the industry before delving deeper into the state of the industry at present and looking towards the future. The report also includes an explanation of the various sectors of the industry as defined by NRG Expert and used in the Database. Also presented in the Report is a Company Analysis showing Global Market Share data for major players as well as a regional breakdown of the market shares for Smart Grid companies in key regions.

Finally the report covers the NRG Expert Methodology used to compile the Transmission and Distribution Database and Report.

Countries Covered in the Database

Note: A circle (o) denotes that the data set is included. An asterisk (*) denotes that the data may be partially available or in a non-standard format. A dash (-) means that we do not have data for this category, in the country listed.
