

## Join the Power Gen Community at the 15<sup>th</sup> Outage Management for Power Plants Conference in New Orleans

*Pioneering maintenance and planning strategies across the fleet to deliver outages within schedule and under budget*

**New Orleans, LA– April 5, 2016 – marcus evans** will host the **15<sup>th</sup> Outage Management for Power Plants (OMPP) Conference** on July 26-28, 2016 at the Astor Crowne Plaza in New Orleans. As it has for more than over a decade, this annual meeting provides power generation professionals with proven case studies on how to run outages efficiently without sacrificing operational excellence.

Heads of outage management, plant management and maintenance from power plants will reveal and uncover recent techniques to meet and surpass challenges associated with planning and scheduling, outage readiness programs, budget tracking, preventative and predictive maintenance programs, availability of quality craftsmen, scope development and control, regulatory / technical requirements, safety awareness, and risk management.

Hear What Our Attendees Think! [Click Here for Video Testimonials](#)

### Attending this advanced conference will enable you to:

- **Optimize** cost control practices and implement fleet-wide overhaul standardization with **Pacificorp**
- **Manage** scope growth within your plant and ensure timeliness to guarantee a successful outage via **FPL, Westar, and Idaho Power**
- **Navigate** outage capital and O&M expenses in real time with **Dynegy**
- **Analyze** unit overhauls with 4D scheduling with **Consumers Energy**

### Past Attendees Include:

TVA, AEP, Southern Company, Duke Energy, Cleco Corporation, Consumers Energy, Alliant Energy, Sempra Generation, Constellation Energy, Puget Sound Energy, PPL Corporation, OGE Energy, PNM Resources, Xcel Energy, Salt River Project, Entergy, FirstEnergy Corporation, We Energies, Georgia Power, DTE Energy, Ameren, Dominion Resources, NV Energy, Indianapolis Power & Light, and Ontario Power Generation

For more information, please take a look at the [conference agenda](#) or contact Tyler Kelch, Digital Marketing Manager at [tylerke@marcusevans.com](mailto:tylerke@marcusevans.com)

The 15<sup>th</sup> OMPP meeting is co-located with the 8<sup>th</sup> Chem/Petrochem and Refinery Shutdowns and Turnarounds Conference, which is the leading event for Shutdowns/Turnarounds, Maintenance and Reliability professionals from the chemical, petrochemical and refining industries.

*marcus evans* annually produces 2,000 high quality conferences designed to provide strategic business information and networking opportunities for industry leaders

Featuring Case Studies from Leading Outage & Power Plant Maintenance Experts, including:

**Ken Sturtecky**  
Executive Director,  
Fleet Outages  
**First Energy**

**Thomas Rich**  
Senior Outage  
Scheduler  
**Consumers Energy**
