

Neoedge presents an advanced course on Project Portfolio Management focusing on methodology, tools, and best practices for various industries in Latin America and the Caribbean

World-class trainer & Project Management practitioner, Dr. Prasad Kodukula, will facilitate the event.

Port of Spain, Trinidad & Tobago, 3rd February 2015 – Neoedge, a leading global business intelligence company, will present a four-day, intensive workshop to be held at the Hilton Trinidad and Conference Centre in Port of Spain, Trinidad & Tobago, on 24th - 27th March 2015.

This event marks seven years of partnership between Neoedge of Singapore and Dr. Prasad Kodukula, PMP®, PgMP®, President, Kodukula & Associates, Inc., Chicago, Illinois, USA. Recognized by the Project Management Institute (PMI) as “Best of the Best” in project management, Dr. Prasad has been collaborating with Neoedge to offer methodologies, tools, and best practices to project, program, and portfolio managers through many parts of the globe.

According to Dr. Prasad, “A key part of this workshop is an elaborate case study involving a portfolio of nearly 30 projects that simulates real-world portfolio scenarios. They will be presented in the form of a series of hands-on, interactive exercises throughout the workshop. By means of these exercises, the workshop delegates will learn how to apply proven tools and techniques to manage various portfolio management processes. The exercises will range from designing, constructing, monitoring, and controlling a portfolio to evaluating new projects for the portfolio to make go/no-go recommendations.”

A Project Portfolio Management process is crucially needed by organisations, especially those which have reached higher levels of maturity in managing their projects. Collective management of project investments under the purview of a portfolio will help achieve an organization’s strategic as well as operational initiatives more effectively and create sustainable value in the long run.

Every delegate attending this course will receive thirty (30) Professional Development Units (PDUs) and a copy of Dr. Prasad’s latest book on portfolio management.

Dr. Prasad is an author or co-author of eight books. He has spoken in nearly 40 countries. A speaker and a coach with three decades of professional experience, he has worked with more than 40 Fortune 100 Companies. Dr. Prasad is a technology evangelist and educator whose outstanding contributions have been recognized by not only the PMI but also the U.S. Environmental Protection Agency and the States of Kansas and Illinois.
